

Solution:

Deployed Breeze ECC LXR Thin Client

Configuration:

Operating System – Embedded Customised Linux with kernel 4.x.xx (as required by CRIS) within 2GB

Software – Emulation suite, ISCII Library, JRE 1.6 & 1.8, Latest Mozilla Firefox and other required dependencies / packages.

Hardware- Min 1.1Ghz Quad Core processor with burst frequency 2.4Ghz , 4 GB RAM, 32GB OP FLASH,USB ports, one Parallel printer Port, Two Serial Port etc.

As a unified Thin Client any or multiple applications from UTS,PTS,New PRS & SMC can be run from same Thin Client

As the thin clients are without any moving part, the maintenance is very low compared to regular desktop

The OS & Software's are stored in Flash drive which ensured faster speed

With USB storage disabled, no unauthorised access to data

No fiddling with configuration etc.

Protection from viruses and malware attacks

Consumes ¼ power compared to a regular desktop, ensuring Huge savings on power bills
